Experience & Knowledge

SAGlobal has been providing Outsourced Development services exclusively on Microsoft Dynamics products since 2000 for different Localization projects undertaken by the Microsoft GDL team.

Latin American countries, European countries, Brazil, India & APAC are a few of the many localizations that we have developed and maintained for Microsoft. We host a team of over 200+ software development professionals who have experience on Microsoft Dynamics AX. With 100% certification on Microsoft Dynamics AX, we come with a vast amount of knowledge and industry experience.

Our development team is capable of taking up any challenges around Microsoft Dynamics AX. We follow Microsoft methodologies & best practices defined by Microsoft on all our projects. This ensures that your product gets to market faster through our mature application development & management process.

We are recognized as Localization and Globalization specialists in the industry. With our global presence & knowledge, we are able to understand the global and local needs around Microsoft Dynamics products around different geographies. We have specialist knowledge and extensive experience with Microsoft Dynamics products version upgrades. We have done a number of end-to-end vertical product development projects.

We understand the problems that can occur in relation to systems integration and offer both customizations of existing integration elements and custom-made system integration solutions.

The SAGlobal Partner AdvantEDGE Program

The SAGlobal Partner AdvantEDGE Program is a global service and support program for all Microsoft Dynamics partners to help them provide their customers with superior quality of services on a global scale and become more competitive at the same time.

Most Microsoft partners find it difficult to scale up their business, become more competitive and provide quality services to their customers. The SAGlobal Partner AdvantEDGE Program is specifically designed to allow Microsoft partners to focus on business development and provide parexcellence services to customers, allowing them to lower their bottomline at the same time.

The SAGlobal Partner AdvantEDGE Program provides partners with an opportunity to utilize the services of a team of professionals who have been in the industry for over 24+ years, have worked across 60 countries on various Microsoft Dynamics projects and have been involved in the core development and support services for Microsoft themselves.
