

Localization Services

Local Functionality & Seamless implementation across multiple countries providing for greater customer satisfaction & increased business development opportunities

"Fantastic job team! Last night the Ready To Market (for GLS Cons) announcement was made. It has been a really long haul and we really appreciate all the effort, energy and dedication you have shown in getting this release out the door. We look forward to working with you all on future projects."

Keep up the passion and dedication and great work! This is a truly wonderful start to 2009!

All the very best for 2009 and new experiences."

- ✓ 75+ member team dedicated for Microsoft Dynamics AX localization

The SAGlobal Partner AdvantEDGE Program

Global clients today are looking at applications with country specific localized layers so it becomes easier to work in each country location. You have the expertise for setting up the system in a country but how will you be able to support your client on a global scale?

Expand the capabilities of your ISV applications from a single country focus to a global ISV application. As one of the primary vendors used by Microsoft to develop and maintain the numerous country localization layers, our expertise brings a dedicated team who has a vast knowledge of a country's localization integration issues.

The SAGlobal Partner AdvantEDGE Program allows a partner to scale up business while making sure that their clients acquire the best of services; overall increasing the quality of support and increasing their margins due to the low costs of outsourcing.
