

Test Services

Provide local support to your customers located across the globe

"I would just like to add my thanks and appreciation on this magnificent delivery. Microsoft Dynamics AX 5.0 features, GLS merge, Wave 2 Projects and the localization are being very well received and the functionality available is beyond expectation. I know 2007 was a very hectic year for the team and that designing the new localization from scratch was a huge challenge but you were all up for it!"

Janine O'Shea
Lead Program Manager - EMEA & India
Global Development Localization Team

Experience & Knowledge

With in-depth knowledge on Microsoft Dynamics AX and Test Procedures & Microsoft Test Tools, they are very versatile in handling any Customization, localization and core Microsoft Dynamics AX work with rich domain expertise and good understanding of business processes.

Key Process Test process handled by the test team when testing existing and new features for Microsoft Dynamics AX:

- ✓ Review of the functional specifications
- ✓ Creating test designs & test cases (Methodology of test approach)
- ✓ Manual/Automation testing, Upgrade, Multi User, Integration & Performance testing
- ✓ Configuration & Parameter testing (to avoid Multi-company/country conflicts within the same application)
- ✓ Security testing
- ✓ Batch Posting (transactions on a weekly/ monthly basis on a scheduled time through a batch server) executes them one by one
- ✓ Scorecard Testing (Testing important scenarios before the code is

The SAGlobal Partner AdvantEDGE Program

The SAGlobal Partner AdvantEDGE team consists of resources with rich domain knowledge, who have undergone intensive in-house training and are certified on different Functional modules of Microsoft Dynamics AX.

Extensive experience in end-to-end testing processes which involves Business scenario and application integration, Upgrade testing, security testing and use of Microsoft automation tools to optimize the testing time as well as to do a thorough regression time and again to make sure nothing breaks when new features and functionality is added.

Over the past 12 years, our test team has built considerable technical expertise and experience of handling various test automation tools & processes.
